COATING PAN

PharmaChem are engaged in offering our esteemed clients with a qualitative range of Coating Pans, these are widely used in the process of coating tablets and confectionaries, wherein the skills of the coater need to be supplemented by a correctly designed, versatile coating pan. Our range has a very heavy & sturdy structure and is made from angles as well as channels.

The coating pan must have effective baffles to allow proper mixing of bulk tablets during coating . The pan must be fitted with a retractable arm for spray assembly which is an angle adjustable device for spray/dosing header.

SALIENT FEATURES

- Design is cGMP Practices compliance.
- All contact parts AISI 316/304 & non-contact parts AISI 304.
- Conventional coating system for manual film coating and sugar coating.
- Machine is designed with fabricated structure fitted with SS enclosure which makes simple, cleanable outside covering and mounted on anti-vibration pad.
- Closed powerful pan drive with reduction gearbox and motor by variable speed pulley.
- Movable hot air blowing system with electric heater.
- Easy to replace polishing pan and other size coating pan.

OPTIONAL FEATURES

- A.C. frequency Drive for pan
- Fixed or detachable type baffles
- Interchange different size Pan & Polishing Pan
- Atomized Spraying system with Spray Gun Peristaltic Pump and Solution tank and Electro Pneumatic controls
- Pressurized vessel with spray gun
- Flame Proof Electrical
